Backup
- Database
- VM
- Storage Account
- Key Vault

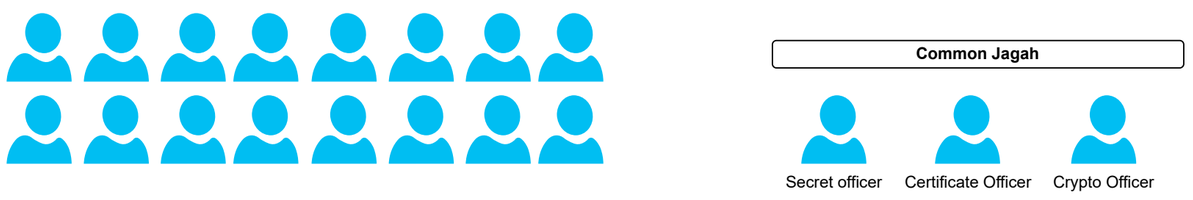

- What is keyvault?
- Private and Service Endpoints

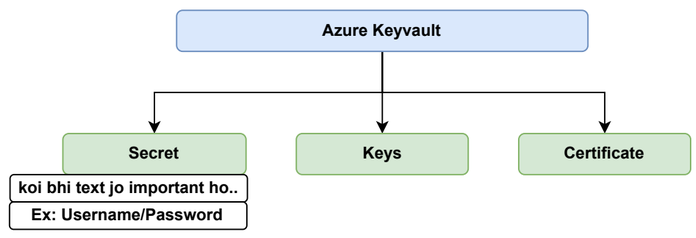

- Manually Feel → Keyvault child module (HomeWork)

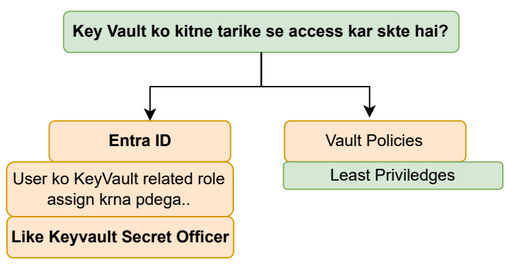

Backup and DR me sabse important kya difference hai?

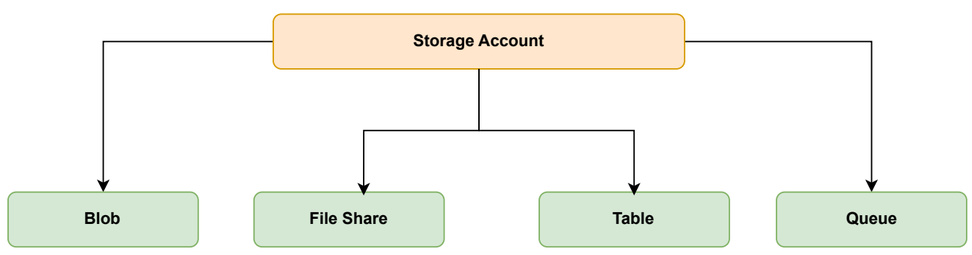

Production pura landing zone ud gya to kaise wapas khada karoge?

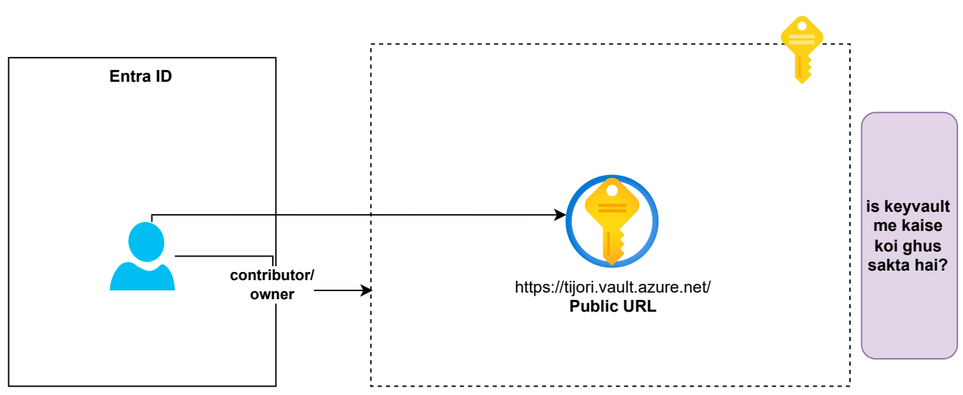

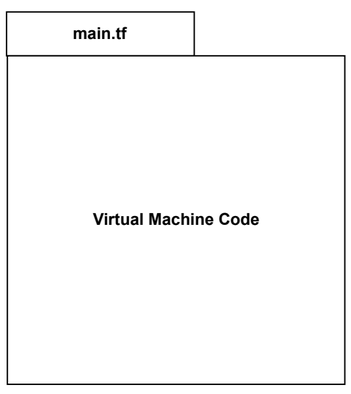

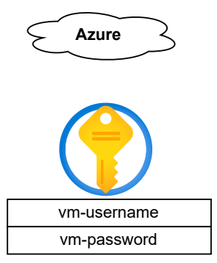

- jpg, video, document — http/https
- jpg, video, document — SMB
- TAble format — http/https
- FIFO — http/https

- Vault Policies
  - Fine Grained Access Contol
- Entra ID (Recommended)
  - Role Based Access control
  - Secret officer, Certificate Officer, Crypto officer

HomeWork: Why Microsoft Recommends RBAC using Entra ID? Why not use Vault Policies?

- How secret is created from terraform or manual and how secret rotation happens?
- What is managed identity?

- Private Endpoint ka jarurat hi kyu pada?
- Private Endpoint hota kya hai and how to enable manually and using automation?
